Use Camera Without SSL(https) In Chrome (Android)

Step 1: Open Chrome and type below URL
chrome://flags/#unsafely-treat-insecure-origin-as-secure

Step 2: Add the IP/Domain which you need to treat as secure as shown in the below image.(If more than one origin/domain then separate by comma)

Step 3: Enabled it.
Step 4: Relaunch Chrome
Step 5: Done.
